THE FLATLINE

Growth has gone flat.

THE HONEST READ

The offer's ready. The engine stalled.

- ✓

You've built the money-making part — rare

A real product (the Playbook), a funnel via performancecollab, a YouTube channel, case-study highlights. **Most pages this size never build an offer.** That's why the fix is narrow: it's not the business, it's the reach feeding it.
- 1

Engagement is near-dead

0.1% — **117 likes and under 1 comment** a post across 121K followers. A genuinely active audience this size throws off thousands. Instagram now reads every post as low-quality and quietly caps its reach.
- 2

Growth has flatlined

+1,881 in 30 days, but only **+50 in the last 14**, with negative days. It went from steady growth to a standstill — the top of the funnel has stopped filling.
- 3

The Playbook barely gets seen

You've got the offer and the link — but at ~117 likes of reach, **almost nobody's being sent to it**. The product is ready; the traffic that's supposed to feed it has dried up.
- 4

Aggregated clips, no owned voice

Hormozi, Shark Tank, Kevin Hart reposts — well-branded, but other people's content. No face, no original take, **no reason to follow Millionaire Guide specifically** rather than the next motivation page.

WHAT WE'D CHANGE

Illustrative: 1.5% of 121K followers. A directional target for what this audience – and your funnel – should see, not a guaranteed number. We promise the system and the work; the traffic is the outcome of it.

You've built the offer. *Let's get it seen.*

121K followers, a Playbook, a funnel, a YouTube channel — the assets are already there. The only broken piece is reach, and that's the fixable one. Give me 15 minutes and I'll show you what the first 30 days looks like.
