Last year it added 1,000+ a week. Now it *loses* ~1,000 a month — with no pulse to measure.

THE SNAPSHOT

A big account *running in reverse*.

THE REVERSAL

Almost every day is *a loss*.

WHY IT TURNED

A commodity feed, past its peak.

- 1

The engine flipped into reverse

From strong weekly growth to **-974 in 30 days, -32/day**, red on almost every single day. This isn't a plateau or a slow week — the account is actively losing the audience it spent years building.
- 2

No measurable pulse

Socialblade reads **0 likes, 0 comments, 0 engagement**. Whatever's posting isn't reaching even the current 143K — the algorithm has effectively shelved the account, which is exactly what the follower graph shows.
- 3

It's pure curation — no identity, no moat

The bio says it plainly: **"curating content for entrepreneurs."** No face, no voice, no original take — a logo reposting other people's business stories. A commodity feed gives followers no reason to stay once the novelty fades. That's the fade you're in.
- 4

Nothing to convert to

No link, no offer, no funnel. Even at its peak, none of this audience was ever turned into an owned asset — **now it's simply walking out the door**, and there's nothing left behind when it does.
- 5

The size is now working against you

143K followers with zero engagement and daily losses tells Instagram **"large, low-quality, declining"** — so it throttles reach further, which accelerates the slide. Left alone, it compounds downward.

WHAT WE'D CHANGE

Stop the bleed. *Give it a reason to exist.*

TODAY	UNDER PAGESCALING
NOW Anonymous "curated" reposts	FIXED A real identity & voice — a point of view people follow on purpose, not by accident
NOW 0 likes, 0 comments	FIXED Content built for comments, saves & shares — the signals that force distribution back open
NOW Static carousels, shelved reach	FIXED Reels + trending audio to reopen discovery and reverse the decline
NOW 143K followers, no offer	FIXED A funnel that turns the audience into an owned asset before more of it leaves
NOW Declining, unmanaged	FIXED A managed content system + monthly report tracking the line back to positive

THE UNLOCK

Turn the line back around.

TARGET AFTER THE FIX

Positive

growing + engaged

A directional goal for a 143K page rebuilt around identity, Reels and engagement – not a guaranteed number. We promise the system and the work; the turnaround is the outcome of it.

You built 143K. *Let's stop it walking out the door.*

The audience is still there — it's just leaving faster than it arrives, because nothing's giving it a reason to stay. That's fixable. Give me 15 minutes and I'll show you what the first 30 days looks like.
